

## **CREATIVITY AND INNOVATION MINOR**

The Creativity & Innovation minor is designed for anyone who wants to thrive in this emerging world by producing work that is both new and useful. Providing a curriculum that is both theoretically sound and pragmatic, this program will help students discover their vital role as creative cultivators. Special emphasis will be placed on cultivating creative habits, developing talents, practicing innovative processes, and studying current research on creativity. Students who meet a G.P.A. of 2.5 or higher will be awarded a Certificate in Creativity and Innovation. This program is a perfect complement to students seeking to enhance their life, talents, and career.
